Savelli Arch&Design - Italy, Rome

Comfort meets wilderness in our beautifully designed tents. The large wooden baobab, designed for the headboard, gives the room a very original touch. Everything is handmade by local artisans.

From idea to realization.
Each furniture has been studied specifically
for Kiboko and carefully crafted by local artisans.
Every detail is important and makes every single piece
a masterpiece.

MASAAI SOUL

The Masaai identity is often defined by colorful beaded necklaces, an iron rod and of course, red *shuka* cloth. While red is the most common colour, the Masaai also use blue, striped, and checkered cloth to wrap around their bodies. You can admire a beautiful wall enriched with Masaai tartans in our restaurant.

> ENJOY A GOOD COCKTAIL <

At Kiboko River Camp you will always find a smile. Every experience is crafted just for you, from serene moments by the river, enjoying a good cocktail, to thrilling adventures in the wild.

K A REFINED DINING K

Enjoy your meal with a side of wildlife.

A special mention for the cuisine, which is not usual to find close to a national park. Carefully prepared dishes and trained chefs, a great choice and variety of foods, make it a “unicum” in these parts.

Lunches and dinners are enriched with a varied and refined Italian cuisine, prepared using authentic local and imported products, not forgetting the resources of the African land and some typical Kenyan dishes.

K ITALIAN TOUCH K

Kiboko River Camp is also equipped with a wood-fired oven where real Neapolitan pizza is prepared on request. An Italian touch of unquestionable taste.

> ENCHANTED VIEWS <

The restaurant at Kiboko River Camp overlooks the Galana River with a 180-degree panoramic view of the sunrise during breakfast in the morning and the sunset before dinner. Let yourself be enchanted by this breathtaking view and the sweet sound of the river.

> AN ECO-FRIENDLY PARADISE <

Kiboko River Camp is an eco-friendly paradise, where electricity and hot water are constantly guaranteed by solar panels and continuous water recycling, to avoid waste. The solar panels are not just a source of energy; they're a part of our commitment to sustainability.

K CONNECT WITH THE WILD K

A guided bush walks with a Masaai offer guests an immersive way to connect with the unique flora and fauna of Tsavo. Meet your Maasai butler at Kiboko River Camp. Dedicated to enhancing your stay, they will guide you safely around the camp and enrich your experiences in the hearth of the wilderness.

WILDLIFE FRIENDLY

Guests can admire hippos, crocodiles and elephants from the comfortable terraces and tents, in complete safety. Security is ensured by an electric grid surrounding the area and Maasai keepers, who know the wildlife very well, know how to keep them at a distance, as well as protect and warn guests.

In this totally “wildlife friendly” place, a water pond has been dug to allow every species to drink. Cameras present at the lake show zebras, gazelles, giraffes, elephants and even a beautiful family of lions using the water reserve. Guests can watch the animals roam freely on their cell phones, using an app provided to them during their stay.

A photograph of two cheetahs standing on a large, reddish-brown earthen mound in a savanna environment. The cheetah on the left is standing upright, looking towards the camera. The cheetah on the right is sitting or crouching, also looking towards the camera. The background shows a blurred landscape with green bushes and trees under a soft, overcast sky. The foreground has some green, wavy graphic overlays.

✧ EVERY ANIMAL TELLS A STORY ✧

Kiboko River Camp is in a prime location at the entrance to one of Kenya's largest and most densely populated ecosystems, where among breathtaking scenery, acacias and patches of vegetation are almost all the major wild animals that can be found in equatorial Africa, including the large predators.

K DISCOVER THE WILD HEART OF TSAVO K

The Tsavo East is located halfway between the coast and Nairobi, in an area that was once called the Taru Desert. It is most famous for its larger mammals, mainly the huge herds of “red” elephants. The ground in Tsavo is a deep red color and the elephants often cover themselves in dust making them a deep red color.
